EDUCATION

Acharya Institute Of Technology

Bachelor of Engineering Computer Science *GPA: 7.9*

Bangalore

2020 - 2024

SBGNS PU College

Class 12 *GPA: 91*

Chikkaballapur

2018 - 2020

INTERNSHIP EXPERIENCE

Bharat internship

Front end web development

Remote

August 2023 - September 2023

- This was an one month remote internship, where I built projects using the concepts of HTML,CSS and Javascript. Learnt in detail about the working of VS code .This Internship helped me to dive into the concepts of web development in depth. Projects I built were more focused on front end. I gained a lot of knowledge on web development from this internship.

SKILLS

Languages:	Java,Javascript,Python
Databases:	MYSQL
Web:	HTML,CSS,UI/UX,figma
Developer Tools:	Git, VS code
IT constructs:	OOPS, Operating system, Computer Networks, DBMS

PROJECTS

Cab Booking System *Java, Mysql*

Developed a Cab Booking System using Java and MySQL.Proficient in Java for backend development and MySQL for database management.Designed and implemented an efficient database structure using MySQL.Developed robust booking logic for users to schedule and manage cab rides.Ensured data integrity and consistency in the MySQL database.Integrated the backend with a user-friendly Java-based frontend.Designed the system with scalability in mind for potential future expansion.Collaborated with team members to integrate frontend and backend seamlessly.

Medicine Remainder application *Java, Mysql, Android studio*

Developed a Medicine Reminder Android App using Java and MySQL.Proficient in Java for Android app development and MySQL for database management.Integrated MySQL database to store and manage user medication data securely.Conducted thorough testing and debugging to ensure app functionality.Integrated Android notification system for timely reminders.Implemented effective error handling for a smooth user experience.

Piggy Game *HTML, CSS, Javascript*

Developed Piggy game using JavaScript.Implemented engaging gameplay mechanics.Overcame coding challenges effectively..Created an intuitive and visually appealing interface. Acquired new skills during development.Rigorous testing for a seamless user experience.Collaborated effectively in a team environment.

CERTIFICATIONS

Responsive Web Design

Completed this 300 hours of course , did 5 certification projects as part of the course to get the certificate, learnt about responsive HTML and CSS in detail

FreeCodeCamp

Complete Web & Mobile Designer in 2023: UI/UX, Figma

Learnt about user interface and user experience in detail from this course. Helped me a lot to dive in detail about UI's. This course made me understand how to fulfill user's requirements. This course also taught me about figma

Udemy

The Javascript course

This course helped me to understand the concepts of javascript . This helped me to upskill my knowledge in javascript language and eventually built some projects by the knowledge I gained from this course.

Udemy
